

6th Grade Math Summer Homework

I am looking forward to teaching your children next year. To help them keep up their math skills, I have set up an account on Kahn Academy for them to practice. There is no set amount that they should do; however, they will get extra points next year for what they have completed. The more practice they do over the summer, the easier time they will have next year.

I will email each child their login and password information.

Please reach out if you have any questions.

Thanks so much,

Erin List
