

RAMBAM DAY SCHOOL

CHALLENGING ACADEMICS | CORE VALUES | LEADERSHIP

Message from the Principal...

a few weeks ago, a representative from Bright from the Start, (whom our pre-school is licensed by) popped in to evaluate our facility. While the representative was sitting with me and going over the report, with great enthusiasm, she commented that my three year old teacher was absolutely amazing. I applaud Yedidah Schochet!

We have begun the process of going through Quality Rated again. We did it three years ago and we earned their highest rating. Quality Rated is a step above licensing. It is Georgia's system to determine, improve and communicate the level of quality in a program. Last week, our representative came to the school and began her observations to help us determine areas of strength and weakness. After her observations she came into my office and said, "Other schools would love to have your teachers!!!" I applaud Briana Rivers our 2Y teacher and Terri Rockwell our pre-k teacher! Behind every successful teacher in pre-school is an assistant working with them side by side to accomplish all goals and take care of the children. Claudia Clark, Priscilla Harris and Kim Cullins assist our pre-school teachers and play an important role in our success!

As Rosh Hashana approaches, it brings moments of reflection.

Definition of aggravation -an act or circumstance that intensifies something or makes something worse.

Definition of happiness - a state of well-being and contentment: joy. I think we could all agree that we all want to live in the "city" of happiness! However; we must first accept that this city is found in the "state" of mind!

Perception is only unquestionable reality in our minds. To truly see reality, we must have an open mind, a positive attitude and a flexible perception.

The entire faculty and staff of Rambam Day School wishes all of you a very happy, healthy New Year!!!!

The 2Y, PreK, and Morah Rena wish y'all a Shana Tova U'Mesuka - a Happy Sweet New Year!

First Grade News

Kittah Alef has been busy preparing for Rosh Hashana with various projects and games!
Shana Tova!

Morah Rena and Ms Jhazmyne

2nd Grade

The second grade was learning about Avrohom building a mizbayach (altar) for Hashem. It was Avrohom's special way of saying thank you. The students were so excited they wanted to build their own.

The second grade is getting ready for Rosh Hashanah. We have some talented students. If you need, they could blow the shofar for you. Have a happy and a healthy new year.

2nd Grade Musical Explorer Class.

3rd Grade News

Third Grade is a very rewarding experience. We have so much to learn and all the energy and desire to do it. In fact, we have already finished our first Parsha in Chumash, Parsha Chaya Sarah. we'll waste no time and move on to our next parsha, Toldos.

As you can imagine, with Rosh Hashanah quickly approaching, we have been spending a great deal of time reviewing and learning about Rosh Hashanah so that we can be ready and prepared for this most awesome holiday.

We have also been working on our davening skills. Our goal in third grade is to learn several new sections in our siddurim so we can be better prepared to participate in the regular daily services. So far, we have added quite a bit.

I would like to take this opportunity to wish our third graders, their families and the entire Rambam family, a Shana Tova U'mesukah, May we all be inscribed in the Book of Life for this coming year.

Rabbi Gordon

3rd and 4th Grade

Third and fourth grades has been learning about different types of energy and how they transform into each other. We have learned that the more energy an object has, the more energy is released. We saw how heat actually moves air. We have also learned about renewable energy forms.

During our discoveries we conducted several experiments. In the first experiment, we created twisters and saw that the thicker rubber bands spun faster because it required more energy to turn, therefore releasing more energy. In another experiment, we created a spinner and placed it under a lamp. When the lamp became hot, it heated the air around it causing the air to rise. The moving air made the spinner move without anything touching it.

STUDENT COUNCIL 2019-2020

Our fabulous student council leaders, Michael Stoltzman, Shani Rabhan, Esther Safer, and Tzvi Rabhan, introduced this year's theme of **ROYALTY** with a surprise trip to **STARCASTLE!** Everyone had a wonderful time skating, laser tagging, and playing arcades! We look forward to a fun-filled year!

SEVENTH GRADE YAHADUS

Seventh graders celebrated the completion of their Rosh Hashanah unit by making their own delicious "apples"! Ask them what they're made out of! YUM!

Seventh graders show off their gorgeous ROSH HASHANA TRIVETS!

SEVENTH AND EIGHTH CHUMASH

After learning about the story of Bilam and how he could only receive prophecy at night, in his dreams, we made delicious little "**Bilams in a Blanket**"!

EIGHTH GRADE YAHADUS

Eighth graders created their very own **SIMANIM RINGS** to assist them in saying the special prayers over the symbolic foods we eat on Rosh Hashana.

Algebra class learning to use Excel spreadsheets.

BETTER TOGETHER PROGRAM 2019-2020

Our Better Together Program this School Year of 2019-2020 is up and running! The Eighth Graders ran a wonderful Rosh Hashana program with the seniors of Buckingham South. They introduced themselves, shared some thoughts on the holiday of Rosh Hashana, and assisted the residents in making Rosh Hashana cards. We are looking forward to a great year!

Days of Learning
