

EXTRA TORAH

Summer is here and we have a great chance to review all the Chumash we have learned this year. Attached is a schedule that will help organize the review process. Each week your child should review the assigned (approximately 11 or 12) Posukim, Hebrew and English. The translation books will surely be of help. This could be done at one time, or broken up through out the week.

On the schedule you will also find assigned shorashim to review. After all the work that the children have put into learning these 100 shorashim, it would be great for them to retain them for the coming school year.

Please verify the review done each week, by signing in the appropriate place on the attached calendar. I strongly encourage every student to complete this review, as it will surely help him/her make the transition into 3rd grade.

As an incentive, any student who completes 7 out of the 10 weeks, on schedule, will receive a reward at the beginning of the next school year.

If you have any questions or concerns, or just say “Hi”, please don’t hesitate to call. I can be reached at 912-224-2769.

Have a great summer,
R' Gold
